### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest the various claimed combinations. In particular, with respect to claim 19, the barrier is taught by Woodruff et al as possibly being canted at an angle other than vertical, but this does not suggest canting the barrier at an angle which is the same angle as the upper portion of the electrode unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
